Cut out the pattern for the base plate (1) (page 5-15) and glue it together at the adhesive surfaces. Then fix it to the plywood board with adhesive tape. Drill the $\varnothing 4$ mm holes in the smaller rings. Then saw out the single parts and clean the saw cuts. Round off the outer edges of the rings with sandpaper, as shown.

Cut out the pattern for the stars (page 17) and fix it to the plywood (2) with adhesive tape. Drill all the stars and then clean the saw cuts.

Glue the wooden ring (1b) centred onto the wooden ring (1a), as shown.

Fix the drive-in nuts (3) into the $\varnothing 4$ mm holes with a hammer.

Remove the tabs on the back of the tealights holder (5) with the pliers.

Then place the tealights holder on the drive-in nuts and screw them into the drive-in nuts, each with a candle spike, as shown.

To glue the stars onto the wreath, flatten two tips on each side, as shown.

Glue the stars, centred between two candle holders, onto the wreath ring (1b), as shown.

Note: Make sure there is enough distance to the candles!

Insert a candle on each holder (we recommend art. no. 426754).

Done!
