Game guide

Start of game:

The skill game "Swinging Ring" is a game for two players. First, the wooden rod is inserted into the middle hole and the two rings are unhooked.

Game Rules:

At the same time, the players try to swing the ring attached to the string onto the hook.

As soon as a player has hit the hook, he may move the wooden rod one hole in the direction of the other player.

Aim of the game:

The game is won as soon as one player manages to move the wooden stick to the opposing player's side. To do this, the wooden rod must first be inserted into the last hole and then "fall" off the wooden board with another hit.
