(4) Plan and instructions for candle wreath

Middle

These instructions are for you to make a decorative candle display.

The two halves of the plan must be cut out and glued together. In order that the instructions are not destroyed both halves can be traced and placed together.

The two discs 1 x 50mm and 1 x 30mm are glued on top of each other and used as a support for the middle. To ensure that the completed display stays intact, glue the finished work to piece of plywood 24cm diameter.

You can decorate the finished work by painting or adding transfers of flowers or animals, or designs to your own taste. Once complete a coat of varnish will protect your work.

The finished display should give many hours of pleasure.

(5) Instructions for apple tree

Page 10

Read the instruction
on the glue before starting.
The bevelled edges
should face upwards.
Glue the discs together
as shown (the glue should
dry clear)

Ring 1 fits on ring 2
ring 2 fits on ring 3 etc.
Arrange and glue.
Glue the two half balls
together and glue in the gap.
Arrange the beads to your
own design adding glue
with a toothpick.

45

Note: Check each level before gluing the parts together.

Levels 2, 3 and 4 must always be arranged with the A disc above the B disc of the lower level.

Meld the candles on the bottom and set them on disc A. We suggest you only use this candle holder as decoration, because of fire risk.

(7) The christmas tree

Pattern for a level of the Christmas tree.

(candles are set on discs marked A)
