Acrylic Mobile Phone / Tablet Holder To Go

Tools Required:

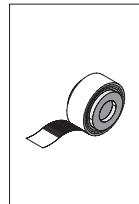

fretsaw or
scroll saw

sandpaper

warding file

adhesive tape

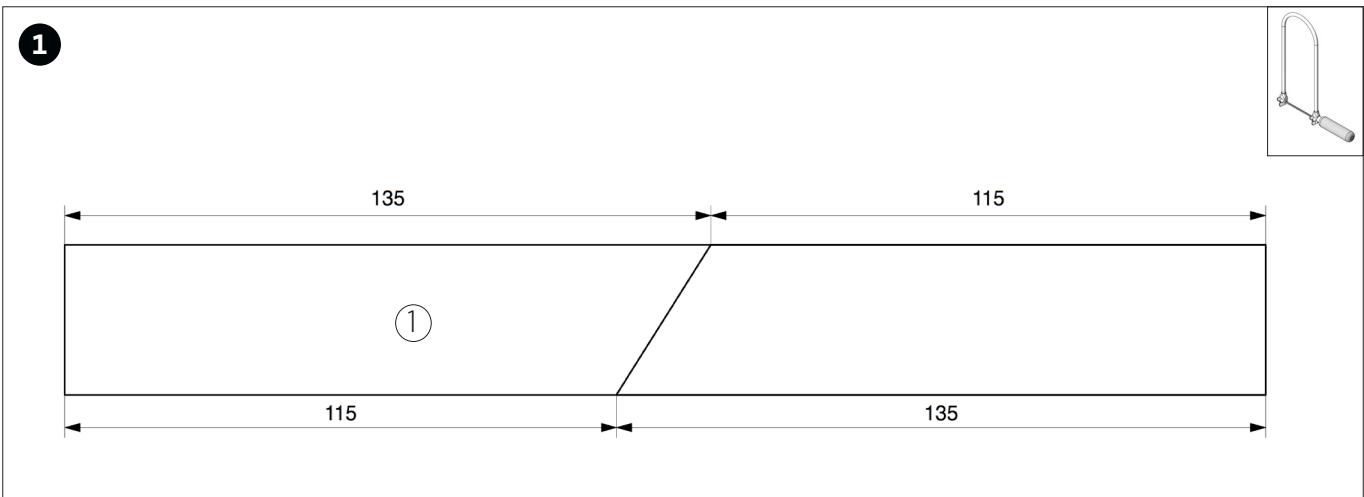

Please Note!

The OPITEC range of projects is not intended as toys for young children. They are teaching aids for young people learning the skills of Craft, Design and Technology. These projects should only be undertaken and operated with the guidance of a fully qualified adult. The finished projects are not suitable to give to children under 3 years old. Some parts can be swallowed. Danger of suffocation!

Parts List	Quantity	Size (mm)	Designation	Part No.
acrylic glass	1	250x30x4	acrylic glass	1
acrylic glass	1	150x30x4	acrylic glass	2

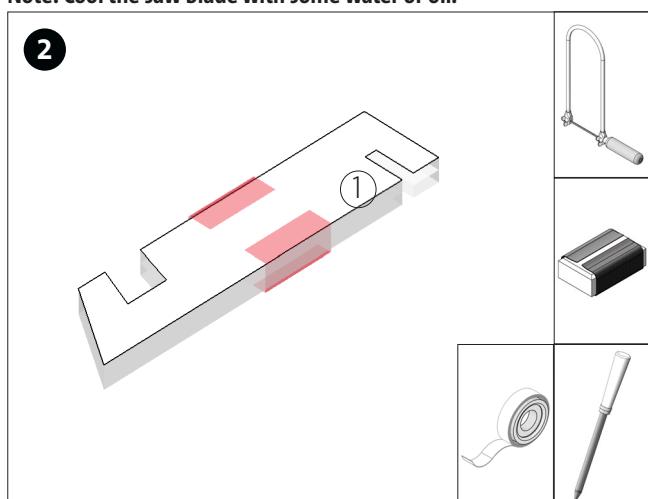

Instructions 116.208

Acrylic Mobile Phone / Tablet Holder To Go

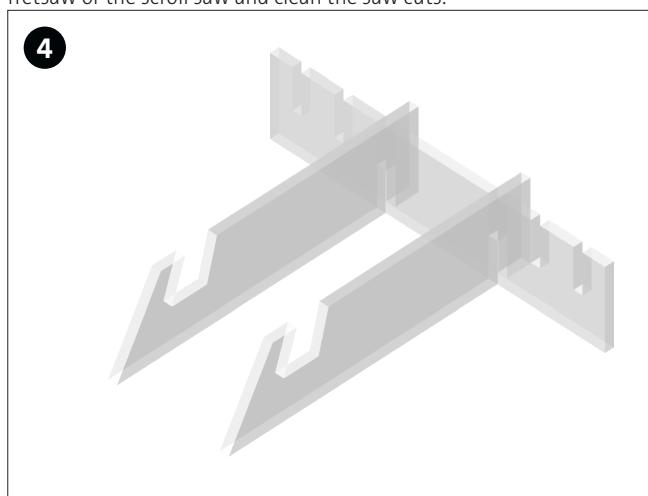

Divide the acrylic glass (1) in two parts according to dimensions as shown. If the acrylic glass is cut with the scroll saw, this should be carried out slowly, because the acrylic glass can melt if the speed is too fast.

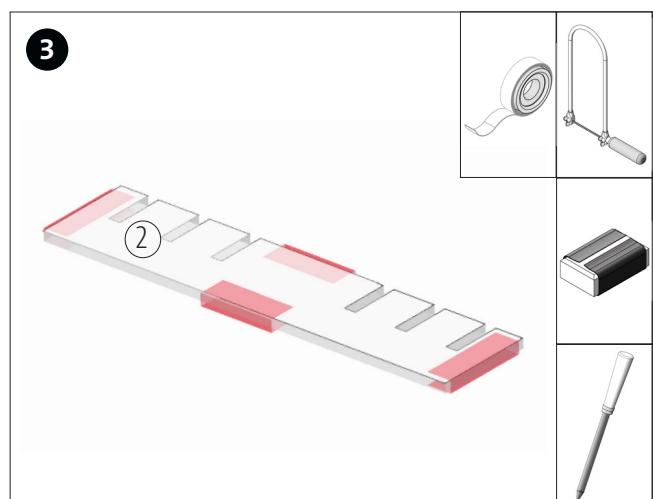

Note: Cool the saw blade with some water or oil.

Fasten the two parts (1) and the template (page 3) congruently with adhesive tape on top of each other. Cut out the recesses with the fretsaw or the scroll saw and clean the saw cuts.

Connect the three parts as required (mobile phone or tablet)!

Affix the template (page 3) to the acrylic glass (2). Cut out the recesses and clean the saw cuts with the warding file or sandpaper. Cool the acrylic glass with some water or oil.

Last place your mobile phone or tablet. Done!
