#### **Please Note**

The OPITEC range of projects is not intended as play toys for young children. They are teaching aids for young people learning the skills of Craft, Design and Technology. These projects should only be undertaken and tested with the guidance of a fully qualified adult. The finished projects are not suitable to give to children under 3 years old. Some parts can be swallowed. Danger of suffocation!

## **Tips**

### **1. Sawing and chiseling out of the notches**

Be sure to meet the given measurements. You may have to file down the strips somewhat. The diagram at a scale 1:1 shows the six strips 30 x 30 x 160 mm at a front and side view. You can use the three-dimensional diagram to transfer the measurements onto the pine strips.

### **2. Assembling of the knot**

The strip marked A - F will facilitate the assembly. To increase the level of difficulty, leave the marks off.
